

Revolutionizing Freight Quoting with AI-Powered Automation

“Wisor.AI has truly transformed our quoting operations. Wisor improved our efficiency by allowing us to generate and compare quotes much faster. It's simplified a process that used to be time-consuming and tedious.

Sandra Nestorova, CHS

Challenges Before Wisor.AI

CHS encountered significant bottlenecks in its quoting workflow:

Carrier pricing had to be checked one by one

Lack of centralization led to inefficiencies

Manual quoting processes caused delays

Slower response times resulted in lost opportunities

Wisor.AI: The Solution

CHS implemented Wisor.AI to digitize and accelerate its freight quoting processes. Core features that made a difference:

Saved Routes Feature- Enabled fast quoting for recurring destinations

Centralized Quote Comparison- Instant access to multiple carrier rates

Automated Email Handling- Responded to quote requests even after hours

Workflow Simplification- Cut down manual steps and increased team productivity

Why CHS Recommends **Wisor.AI**

“

Absolutely I would recommend Wisor to other freight forwarders. It's a reliable, effective, and innovative solution that saves time and enhances results.

Sandra Nestorova, CHS

Real-World Results

With Wisor.AI, CHS achieved:

-  Noticeable reduction in quoting process time
-  Improved quoting consistency and accuracy
-  Faster decision-making and improved customer experience
-  Increased ability to handle more quotes efficiently

About CHS

CHS is a dynamic logistics company operating across international freight services. With a strong emphasis on efficiency and customer satisfaction, CHS is committed to digital innovation in freight operations.
