

Wisor Ignite

The AI Co-Pilot for Revenue assistance in Freight & Logistics

Wisor Ignite is your always-on AI Co-Pilot built to automate quoting, prioritize high-margin RFQs, and drive more revenue without changing your workflow.

The Problem

Too many tools. Too many emails. Too little clarity.

Freight forwarders' teams are buried in noise and manual quoting, stuck in CRMs that don't guide, and inboxes that don't prioritize. The result? Delays, missed margins, and lost deals.

The Wisor Ignite Solution

Know what your inbox is worth, focus on what matters, and let AI co-pilot your work

AI-Powered Co-Pilot Mode

Intelligent deal signals—real-time nudges. Ignite helps your team act fast and smart without guesswork.

Here are the insights I've gathered for you based on the data from the last 3 months:

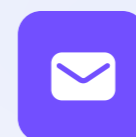

II. Zara Home

%50 ↑10%

Secured Rate

8 out of 16 opportunities

\$5,500

Unified Revenue Inbox

Emails, RFQs, and quotes all consolidated and ranked by what drives revenue, not just what's new.

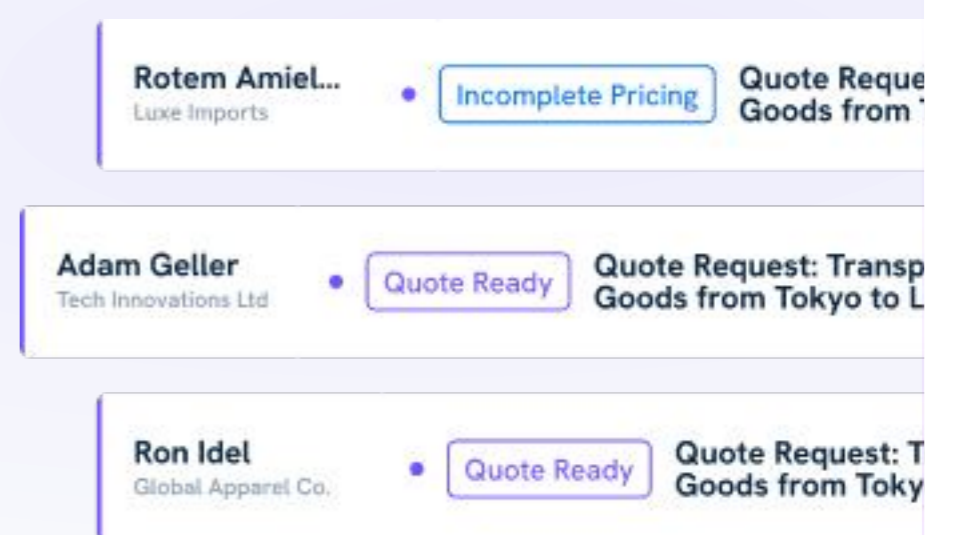

Smart Prioritization by Margin

Focus your team on the most profitable shipments and customers and know exactly where to double down.

Action Layer Built In

Quote, collaborate, and close right from your inbox. There is zero toggling, zero lag, and maximum flow.

Why Wisor Ignite Wins

Respond 3x Faster

Beat the competition to the deal with instant quoting and AI-assisted replies.

Up to 300% More Active Deals

Free your team from spreadsheets, manual triage, and scale quoting like never before.

100% Revenue-Focused Workflow

No waste. Every action taken inside Ignite is optimized to drive margin and velocity.

Who It's For

Sales, quoting, and commercial ops teams in freight, logistics, and supply chain who are ready to quote smarter and close faster.
